Unit 17 The Great Depression Test Answers: An In-Depth Analysis and Review

Understanding the intricacies of Unit 17, which focuses on the Great Depression, is essential for students, educators, and history enthusiasts aiming to grasp this pivotal era in American and world history. This article provides a comprehensive examination of the key themes, concepts, and potential test answers related to this unit. By dissecting the core topics systematically, readers will gain clarity on the causes, consequences, and legacy of the Great Depression, along with insights into typical test questions and their appropriate responses.

Introduction to the Great Depression

The Great Depression was a severe worldwide economic downturn that lasted approximately from 1929 to the late 1930s. Its impacts were profound, affecting millions of lives, reshaping economic policies, and prompting significant social and political changes. For students studying Unit 17, understanding the foundational aspects of this period is crucial for answering test questions accurately and comprehensively.

Key Points:

- The timeline of the Great Depression.
- The global scope and ripple effects beyond the United States.
- The importance of understanding both economic and social dimensions.

Causes of the Great Depression

A core component of any test on this unit involves identifying and explaining the causes. The causes are multifaceted, involving both domestic policies and international factors.

1. Over-speculation and Stock Market Crash

One of the most iconic triggers was the stock market crash of October 1929, often called Black Tuesday. Leading up to this event, rampant speculation and buying on margin inflated stock prices beyond their actual value. When confidence faltered, panic selling ensued, causing a rapid decline in stock prices.

Test Answer Tip: Explain how speculative bubbles, fueled by buying on margin, led to the crash, which undermined financial stability and consumer confidence.

2. Bank Failures and Reduced Credit

The crash led to a wave of bank failures, as banks had invested heavily in the stock market or had lent money to speculators. As banks failed, savings were lost, and lending decreased sharply, constricting economic activity.

Test Answer Tip: Mention the chain reaction of bank failures reducing available credit, which hampered business operations and consumer spending.

3. Agricultural and Industrial Overproduction

During the 1920s, technological advancements led to overproduction in agriculture and manufacturing. When demand declined, prices fell, causing farmers and industrialists to suffer income losses.

Test Answer Tip: Highlight how overproduction created a glut in the markets, leading to deflation and economic contraction.

4. International Economic Factors

War debts, reparations, and the decline of global trade exacerbated the domestic downturn. The Smoot-Hawley Tariff of 1930, for example, raised tariffs on imported goods, leading to retaliatory tariffs and decreased international trade.

Test Answer Tip: Discuss how international economic policies and global interconnectedness contributed to the depth and spread of the depression.

Key Events and Policies During the Great Depression

Understanding the major events and government responses helps students articulate the timeline and evaluate policy effectiveness.

1. Stock Market Crash of 1929

This event is often seen as the symbolic beginning of the Great Depression, although economic decline had already started.

2. The Dust Bowl

Environmental disaster in the American Midwest compounded economic struggles by destroying farmland and displacing thousands of farmers.

3. The Hoover Administration's Response

President Herbert Hoover's initial policies emphasized voluntarism and limited government intervention. Notable measures included:

- The Reconstruction Finance Corporation (RFC) to bail out banks and businesses.
- Public works projects like the Hoover Dam.

Critical Analysis: Many critics argue Hoover's response was insufficient and delayed, worsening the economic hardship.

4. The New Deal under Franklin D. Roosevelt

FDR's administration introduced sweeping reforms to stimulate the economy and provide relief:

- Emergency Banking Act and the banking holiday.
- Civilian Conservation Corps (CCC) and Works Progress Administration (WPA).
- Social Security Act.
- Agricultural Adjustment Act (AAA).

Test Tip: Be prepared to discuss how these policies aimed to stabilize financial systems, provide employment, and reform the economy.

Impact of the Great Depression

The consequences of the depression extended beyond economics, affecting social fabric, political

landscapes, and cultural attitudes.

1. Unemployment and Poverty

Unemployment soared to around 25%, with millions losing jobs, homes, and savings. Breadlines and shantytowns (Hoovervilles) became common sights.

2. Changes in Social Attitudes and Family Life

The depression fostered a sense of resilience but also despair. It challenged traditional notions of individualism and prompted increased government involvement.

3. Political Shifts

The crisis led to a realignment in political thought, with increased support for government intervention and social safety nets. The New Deal coalition reshaped American politics for decades.

4. Cultural and Artistic Responses

Artists, writers, and musicians responded through Works Progress Administration projects, capturing the era's struggles and resilience.
